

leo chavez

(music artist application for HQI360)

Hi, my name is Leo. I'm a 24 year old musician trying to redefine what it means to be a mainstream artist by making thought-provoking, meaningful & masterful music that translates to the 21st century youth.

I make big, bold singles about our modern experience: finding meaning in an age of digital culture & corrupted values, feeling alienated & out of touch with ourselves in a world that's trying to leave us behind...

I'm creating music that stands the test of time, new age classics which represent my generation in a profound way. I hope you can see the potential I see in myself, I have all the belief in the world that I'm going to be something special and I hope I can get the opportunity to show it.

music:

(all of my music is written, recorded & produced myself)

1. All I Think About 24/7
